

Seeding New Ideas...

A proprietary operating system for fast tracking new ideas to a development candidate

We are an insight driven multi-modality integrated drug discovery platform. A unique workflow that combines novel in-house capabilities with leading strategic partnerships embedded on an AI backbone. Our **co-discovery** models are customised to match your funding milestones.

To start your drug discovery project, please reach out to us at **discovery@o2h.com**

our website

Integrated Drug Discovery

- ✓ Target Identification and Validation
- ✓ Hit to Lead
- ✓ Lead Optimisation
- ✓ Targeted Protein Degradation
- ✓ Fragment-based Drug Discovery

Chemistry

- ✓ Medicinal & Synthetic Chemistry
- ✓ Small Molecules, Peptides, Lipids
- ✓ PROTACs, Molecular Glues, ADCs
- ✓ Library Synthesis, Impurities
- ✓ PR&D/Scale-up

Biology

- ✓ Target Engagement
- ✓ Assay Development
- ✓ Drug Screening
- ✓ Biophysical/Biochemical Assays
- ✓ Cell based Assays

DMPK/ADME

- ✓ Physico-chemical Profiling
- ✓ Stability and Metabolism
- ✓ Permeability and PPB
- ✓ Cytochrome P450 Inhibition
- ✓ In-vivo Partnerships

Team

We are constantly innovating our people, project management and technology models leading to outstanding results for our collaborators.

o2h Culture

The DNA of o2h group is centered around the nurturing of its people, values and culture. It reflects in the way we work with each other, as well as our collaborators and partners.

State-of-the-Art Research Centres

We have a state-of-the-art research centres with chemistry, biology, scale-up, process and ADC capabilities to support integrated pre-clinical drug discovery programs.

Chemistry in the Cloud™

Fast decision-making, anytime, anywhere...

o2h discovery presents the world's first app designed to revolutionise the project management of external drug discovery programs.

- ✓ Proprietary ELN now live
- ✓ Manage your biology in the cloud too
- ✓ Search and use the live o2h chemical inventory
